SPONSORSHIP & EXHIBITION

ABOUT MABDESIGN

MabDesign, the French association of the Biotherapy Industry

MabDesign, the French biotherapy industrial association, aims to support, federate and increase the visibility of the biopharmaceutical industry, foster exchanges, promote the development and competitiveness of companies, and stimulate innovation by encouraging the emergence of start-ups from academic research.

Created in 2014, Mabdesign's Board of Directors is composed of representatives from bioMérieux, DBV Technologies, Institut Pasteur, Lyonbiopôle, Oxford Biomedica, Pierre Fabre, Sanofi, ThermoFisher Scientific, TreeFrog Therapeutics and 4 independant field experts : Hervé Broly (ex-Merck); Nicola Beltramineli from Innate Pharma; Maité Durrenbach from Sanofi and Stéphane Legastelois from 33 California.

Moreover, to achieve its goals MabDesign sets up a coherent set of actions promoting exchanges, collaborations and skills development. In this dynamic MabDesign has co-developed a **national directory** that brings together industrial and academic players in biotherapy and allows to identify online the know-how available in France. MabDesign organizes high-level **international scientific events**, in collaboration with key ecosystem players, to highlight innovation and stimulate exchanges between companies in the sector. With the help of its scientific committee (COSSF), MabDesign writes **summary reports** (ImmunoWatch & BioprocessWatch) for the biotherapy industry. MabDesign offers specialized and innovative **continuous professional training solutions** to enable companies to adapt their skills to the market evolution and maintain their competitiveness. Finally, MabDesign offers its members a **wide range of services** to help companies of all sizes to optimize their positioning, protect and enhance their innovations, conquer new markets and raise public funds.

Operational since September 2015, MabDesign currently has over **340 members companies** and its diversity is its strength. MabDesign's dynamic network includes pharmaceutical and biotech companies, service providers (eg. CROs, CDMOs, etc), professional training actors, high-tech equipment suppliers and specialized consultants.

The Festival of Biologics is Europe’s biggest event dedicated to Biologics. It is also the meeting place for the life science community, bridging academia and industry. With three events in one, the festival encourages exchanges across the sector to promote innovation and tackle the complex challenges facing the biologics industry.

Since 2017, MabDesign has organised a shared pavilion for companies of the biotherapy network, and since 2022, the **French Biotherapies Choose France Pavilion** has been eligible for the export relaunch voucher* for companies willing to take part.
